SALES SPECIFICATION

Code: 224A1N-00/S05
Version Date: 02.02.2018
Printing Date: 28.05.2018

Product Name:
SILICA MFIL BAG 25 KG

Chemical Formula:

Appearance: Fine, white powder free from signs of impurity

VARIABLE	UNIT	MINIMUM	MAXIMUM	TYPICAL
Arsenic	ppm		2,0	
Bulk density	g/l	230,0000	270,0000	
Heavy metals (Pb)	ppm		10,0	
Iron	ppm		200,0	
Lead	ppm		5,00	
Loss on Drying, 105 °C	%		6,0000	
Loss on ignition	%		6,0000	
Mercury	ppm		0,10	
Oil absorption (ml/100g)		250,0000		
SiO ₂	%	98,5000		
Specific surface	m ² /g	180,0	200,0	
Water absorption	%	240,0000		
Water solubles	%		1,0000	
pH (sol. 5%)		6,00	7,00	
Size Average	micras			110,0

Observations:

This product is certified under FAMI-QS. Additive for animal feed.
Identification number E 551a

Information provided in this document is based on our know-how and experience, for which, with the exception of the data indicated in the "minimum" or "maximum" sections, it is given without any form of commitment on our part. The use and application of our products lie outside our control and are consequently the responsibility of the purchaser. Unless there is express agreement to the contrary, our products are sold under the established general terms of sale and supply.
